Village Notes:

1. There are Ordinance regulations that have been passed by the Village of Harrison requiring the maintenance of lot drainage plans on a permanent basis. Said regulations have been recorded as Document Number 331468, Calumet County Register of Deeds and shall apply to all subdivisions approved after the 1st day of May, 2001. Said recording shall have the effect of deed restrictions requiring that permanent lawns be established in conformance with the lot drainage plan elevations within one year after initial occupancy of any house. Failure to maintain grades in accordance with storm water or drainage plans shall entitle the Village or representative thereof to direct compliance or upon failure of compliance to make said lands come into compliance. The costs and expenses shall be entered on the tax roll as a special charge against the property and collected with other taxes levied thereon.
2. Building permits and occupancy permits may be withheld for non-compliance with the plat or Village Ordinances relating to drainage and storm water management.
3. In the event that the surface drainage facilities required by the plat which are applicable to the lot for which a building permit has been applied, have not been complied with, the building inspector may withhold building permits required by the building code.
4. In the event that, after construction there is a failure to establish surface grades in accordance with the subdivision surface water plan, the building inspector may withhold the occupancy permit required by the building code.
5. Maintenance of all drainageways and associated structures within the plat or serving the plat is the sole responsibility of the Owner/Subdivider until acceptance by or dedication to the Village of Harrison. After said acceptance please refer to Note 9 for responsibility of owner for maintenance, restrictions and related cost of all Drainage Easements.
6. Where the final drainage plan requires a storm inlet to adequately drain the rear portion of lots within blocks of the plat, the subdivider shall incorporate restrictive covenants in the deeds for the aforementioned lots that, "The respective lot owners shall be responsible for maintaining a clear grate on any storm drainage inlets on their lot."
7. Upon failure of the Owner/Subdivider to perform maintenance of the drainageways and associated structures, the Village of Harrison retains the right to perform maintenance and/or repairs. The payments of said maintenance and/or repairs shall be equally assessed among the property owners of the plat.
8. Pursuant to the Village of Harrison Subdivision Improvements Policy, the developer and/or owner shall comply with the approved Drainage and Grading Plan as submitted to the Village of Harrison.
9. Drainage Easement Notes:
   1) All lands within areas labeled "Drainage Easement" are reserved for stormwater collection, conveyance, treatment, or infiltration. No buildings, fences, parking areas and landscaping or other structures are allowed in these areas. No grading or filling is allowed in these areas that may interrupt stormwater flows in any way.
   2) Any improvement shall be allowed only by special exemption of the Village of Harrison Planner.
   3) Landscaping/plantings shall be restricted to ground cover.
   4) If Drainage Easements are not adequately maintained, the Village of Harrison may levy the cost and expenses of such inspections, maintenance, and/or repair related actions as a special charge against the property and collected as such in accordance with the procedures under Wis. Stats. 66.0627.
10. There shall be no lower exposed openings on lots containing a drainage easement. Any egress windows will require a window well with a top elevation consistent with the top of the house foundation elevation.
